

## Assessment Requirements

### Unit BP17C – Demonstrating Competency in Identifying and Rectifying Motor Vehicle Body Misalignment

#### General Requirements

You must:

1. produce evidence to show you meet **all** of the Learning Outcomes
2. produce performance evidence resulting from work you have carried out on real vehicles in your normal workplace or as defined within the IMI VCQ Assessment Strategy as managed and organised by an approved centre when naturally occurring performance evidence does not occur at frequent intervals in your normal workplace or when safety is at risk.
3. be observed by an assessor as defined in the IMI VCQ Assessment Strategy.
4. produce evidence from your normal workplace of rectifying vehicle body misalignment\* **on 3 separate occasions** covering **all of the rectification activities** listed below.
  - visual examination
  - setting up
  - measurement in conjunction with alignment measuring equipment
  - realignment using pulling equipment

\*Each vehicle re-alignment must have sustained misalignment of at least **2** critical measuring points.

5. be observed by your assessor on **at least 2 separate occasions in your normal workplace.\* See requirement on 2.**

Evidence from simulated activities is acceptable for this unit.
