Framework information

Information on the Issuing Authority for this framework:

Institute of the Motor Industry

The Apprenticeship sector for occupations in the automotive industry (also includes Vehicle Maintenance & Repair, Vehicle Sales, Vehicle Body & Paint, Vehicle Fitting and Vehicle Parts).

Issue number: 7	This framework includes:
Framework ID: FR02532	Level 2 Level 3
Date this framework is to be reviewed by: 31/07/2015	This framework is for use in: England

Short description

The industry relies on a steady flow of new entrants and apprentices to help meet the skills needs of employers and to replace an aging workforce. Intermediate Level Apprentices at Level 2 (Service Technician) and Advanced Level Apprentices at Level 3 (Diagnostic Technician) will learn how to diagnose, test and repair a range of vehicles including light and heavy vehicles, trailers, motorcycles, caravans and motorhomes.

Why this framework is being revised

To update the framework removing the Level 4 pathway, as per the new SASE guidance dated 6th April 2013. Also to include new qualifications under the Light Vehicle Level 2 pathway, the Motorcycle Level 2 pathway, the Motorcycle Level 3 pathway, the Heavy Vehicle Trailer Level 3 pathway and under Employee Rights and Responsibilities (ERR). As well as an update on evidence requirements for ERR when claiming for an Apprenticeship Completion Certificate.

Summary of changes made to this framework

- Removal of the Level 4 pathway.
- Inclusion of a new competency qualification in the Light Vehicle Level 2 pathway.
- Inclusion of new competency and knowledge qualifications in the Motorcycle Level 2 pathway.
- Inclusion of new competency and knowledge qualifications in the Motorcycle Level 3 pathway.
- Inclusion of new competency and knowledge qualifications in the Heavy Vehicle Trailer Level 3 pathway.
- Inclusion of a new Level 2 Employee Rights and Responsibilities (ERR) qualification.
- Update on evidence requirements for Employee Rights and Responsibilities (ERR) when claiming for an Apprenticeship Completion Certificate.

Purpose of this framework

Summary of the purpose of the framework

Defining Apprenticeships

An Apprenticeship is a job with an accompanying skills development programme designed by employers in the sector. It allows the apprentice to gain technical knowledge and real practical experience, along with functional and personal skills, required for their immediate job and future career. These are acquired through a mix of learning in the workplace, formal off the job training and the opportunity to practice and embed new skills in a real work context. This broader mix differentiates the Apprenticeship experience from training delivered to meet narrowly focused job needs.

All apprentices commencing their Apprenticeship must have an Apprenticeship Agreement between the employer and the apprentice. This can be used to reinforce the understanding of the requirements of the Apprenticeship.

On completion of the Apprenticeship the apprentice must be able to undertake the full range of duties, in the range of circumstances appropriate to the job, confidently and competently to the standard set by the industry.

Profile of the Automotive Retail Industry in England:

- the Automotive Retail Industry provides employment for over half a million people in England and is a major contributor to the economy;
- skilled trade occupations make up a significantly larger than average share of the workforce at 38%, compared with 10% of other industries in England;
- vehicle maintenance and repair businesses account for 55% of employment in the Automotive Retail Sector in England and 88% of those businesses are micro employers, employing less than 10 people;
- the majority of the workforce is aged between 25 and 44;
- the workforce is predominantly white male, with females employed largely in secretarial and administrative jobs.

The main challenges facing the Automotive Retail Industry (Sector Skills Assessment Report 2012) relate to:

- skilled trade occupations with Automotive Emerging technologies; hybrid & electric vehicles and Higher level technical skills with current vacancies running at 6,463 and 107,000 vacancies in the future;

- a current as well as future demand for managers and evidence of skills gaps;
- the aging population could limit the pool of young recruits which are needed to replace an aging workforce;
- customer service skills are a key area and need continually updating and enhancing to exceed customer needs.

Employer support for this Apprenticeship

The Vehicle Maintenance and Repair Apprenticeship framework is popular with employers in England with 8,149 Level 2 and Level 3 apprentices starting training in 2011/12. The Vehicle Maintenance & Repair framework is supported by a wide range of employers of all sizes (micro, small/medium and large) across the sector including Jaguar Land Rover, Honda, Mercedes Benz, Toyota, Ford and BMW.

Specific Job Roles for apprentices:

- Intermediate Level (Level 2) apprentices will train as Service Technicians/Technicians, learning how to test and repair a range of vehicles.
- Advanced Level (Level 3) apprentices will train as Diagnostic Technicians or Advanced Technicians learning how to diagnose, test and repair a range of vehicles.

Aims and objectives of this framework (England)

The aim of this framework is to attract new people into Vehicle Maintenance and Repair from a wide range of backgrounds to replace those who leave or retire and to upskill the existing workforce in England.

Objectives of this framework are to:

1. contribute to increasing the number of existing staff qualified at Level 2 and Level 3;
2. attract more applicants from women and other under-represented groups into Vehicle Maintenance and Repair jobs at Level 2 and Level 3;
3. develop problem solving, communication, team working, literacy, numeracy and ICT skills which are a priority for the Automotive Retail Industry;
4. provide micro businesses, which account for around 85% of businesses in the Automotive Retail Industry, with access to a quality training programme to help their businesses grow;
5. provide opportunities for career progression within Vehicle Maintenance and Repair and into the wider Automotive Retail Industry;
6. provide a pathway to further and higher education for those who choose to do so.

Entry conditions for this framework

Apprenticeships are seen as a vital route to attract a greater diversity of individuals into the industry, therefore, entry conditions to this framework have been made extremely flexible.

Most employers are especially interested in applicants who can demonstrate:

- a positive “can do” attitude and a willingness to work hard;
- good communication skills on which this Apprenticeship will build;
- an understanding of the importance to the business of providing excellent customer service at all times.

All pathways in this framework will require good manual dexterity, will involve handling heavy equipment and spending long periods standing. For those working with electrical systems, a colour blindness test will be necessary.

Applicants may have a range of differing experiences, achievements and/or qualifications. Examples of entry conditions that some employers may look for include:

- work or work experience; or
- training and/or experience which could include a portfolio showing what they have done; or
- Foundation Learning at level 1; or
- any of the Functional Skills or equivalent; or
- Young Apprenticeship in the Automotive Retail Industry; or
- any of the (14-19) Diplomas including the Engineering Diploma; or
- a range of vocational or academic qualification(s); or
- a Traineeship.

Specific entry conditions for Level 3 pathways are described in the relevant sections.

Initial Assessment

Training providers and employers will use initial assessment to ensure that applicants have a fair opportunity to demonstrate their ability and to tailor programmes to meet individual needs. This process will identify prior qualifications and experience which may count towards achievement of the framework. Where this is the case, apprentices will be encouraged to undertake new learning at a higher level and develop new skills.

Employee rights and responsibilities

Delivery and Assessment

All apprentices will receive an induction to the workplace and to the Apprenticeship programme.

The nine outcomes for ERR will be covered through achievement of ONE of the following ERR qualifications:

Title: City & Guilds Level 2 Award In Knowledge of Employee Rights and Responsibilities for the Automotive Sector (QCF)

Qualification Reference Number: 600/1216/X

Guided Learning Hours (GLH): 8

Credit Value: 2

OR

Title: IMIAL Level 2 Award In Knowledge of Employee Rights and Responsibilities for the Automotive Sector (QCF)

Qualification Reference Number: 600/1308/4

Guided Learning Hours (GLH): 8

Credit Value: 2

OR

Title: Pearson Edexcel Level 2 Award In Knowledge of Employee Rights and Responsibilities for the Automotive Sector (QCF)

Qualification Reference Number: 600/3713/1

OR

Title: ABC Level 2 Award In Knowledge of Employee Rights and Responsibilities for the Automotive Sector (QCF)

Qualification Reference Number: 601/2952/9

Guided Learning Hours (GLH): 8

Credit Value: 2

Recording

A workbook has been developed to support the delivery of the ERR qualification by providing appropriate learning material and a record of completion by the learner, which will be signed off by the employer.

This workbook must be used as the primary source of evidence for the ERR qualification.

Should another form of evidence of completion be used, it will be the responsibility of the Awarding Organisation to ensure that this evidence fully maps to the requirements of the IMI Workbook. To download the ERR workbook please click here: www.theimi.org.uk/sites/default/files/documents/168799.doc

Evidence

Evidence of achievement of ERR will be via a tick box declaration from the Training Provider on the Apprenticeship Certificates England (ACE) web portal, www.acecerts.co.uk, when claiming the Apprenticeship Completion Certificate. A copy of the certificate of achievement of the ERR Award must be kept as evidence in case requested.

Progression routes into and from this pathway

PROGRESSION INTO THIS ADVANCED LEVEL (LEVEL 3) APPRENTICESHIP

This can be from a wide range of routes including:

- Level 2 Apprenticeship in Vehicle Maintenance and Repair;

- work or work experience within an Automotive environment;
- training and/or experience which could include a portfolio showing what they have done;
- any of the Functional Skills or equivalent;
- Young Apprenticeship in Automotive Retail Industry;
- any of the (14-19) Diplomas including the Engineering Diploma;
- a Traineeship.

Apprentices will undergo an initial assessment to identify prior learning and experience which may count towards the achievement of this Apprenticeship.

PROGRESSION FROM THIS ADVANCED LEVEL (LEVEL 3) APPRENTICESHIP

Jobs:

- on completion of this Advanced Level (Level 3) Apprenticeship, apprentices will be competent to work as a Heavy Vehicle Diagnostic Technician;
- following further training and development, apprentices can progress to a range of jobs such as Workshop Controller, Service Adviser, Service Manager, Workshop Manager or Master/Senior Technician.

Higher Level (Level 4) Apprenticeships:

- Higher Level (Level 4) Apprenticeship in Vehicle Maintenance and Repair.

Further and Higher Education:

- after further training and development onto a Foundation degree for example, in Automotive Engineering or Automotive Technology; OR
- onto Higher Education (HE) programmes such as MEng and BEng programmes in Automotive.

Recording

A workbook has been developed to support the delivery of the ERR qualification by providing appropriate learning material and a record of completion by the learner, which will be signed off by the employer.

This workbook must be used as the primary source of evidence for the ERR qualification. Should another form of evidence of completion be used, it will be the responsibility of the Awarding Organisation to ensure that this evidence fully maps to the requirements of the IMI Workbook. To download the ERR workbook please click here: www.theimi.org.uk/sites/default/files/documents/168799.doc

Evidence

Evidence of achievement of ERR will be via a tick box declaration from the Training Provider on the Apprenticeship Certificates England (ACE) web portal, www.acecerts.co.uk, when claiming the Apprenticeship Completion Certificate. A copy of the certificate of achievement of the ERR Award must be kept as evidence in case requested.

Level 3, Pathway 3: Motorcycle

Description of this pathway

Credit Value: 2

Recording

A workbook has been developed to support the delivery of the ERR qualification by providing appropriate learning material and a record of completion by the learner, which will be signed off by the employer.

This workbook must be used as the primary source of evidence for the ERR qualification. Should another form of evidence of completion be used, it will be the responsibility of the Awarding Organisation to ensure that this evidence fully maps to the requirements of the IMI Workbook. To download the ERR workbook please click here: www.theimi.org.uk/sites/default/files/documents/168799.doc

Evidence

Evidence of achievement of ERR will be via a tick box declaration from the Training Provider on the Apprenticeship Certificates England (ACE) web portal, www.acecerts.co.uk, when claiming the Apprenticeship Completion Certificate. A copy of the certificate of achievement of the ERR Award must be kept as evidence in case requested.

Level 3, Pathway 6: Caravan and Motorhome

Description of this pathway

Vehicle Maintenance and Repair (Caravan and Motorhome):

Total minimum credits: 86 credits representing:

- Combined qualification: 69 credits: 41 competence and 28 knowledge;
- Functional Skills: English, Maths and ICT: 15 credits;
- ERR: 2 credits.

Entry requirements for this pathway in addition to the framework entry requirements

Applicants will need to be interested in training as a “multi skilled” individual, as they will be working on a range of systems, including mechanics, chassis, brakes, gas, plumbing, carpentry/woodwork, electronics and communications technology using on board satellite and diagnostic systems.

Prior experience/qualifications in any of the following industries are desirable as skills in these areas would be useful for this pathway:

- Mechanical;
- Gas;
- Plumbing;
- Carpentry/Woodwork;
- Electronics;
- Engineering.

Previous experience is also desirable for apprentices at Level 3, as they may be required to fill in for supervisors.

Job title(s)	Job role(s)
Caravan and Motorhome Advanced Technician	Diagnosing, repairing and replacing faulty parts in caravans/motorhomes, maintenance and inspections including servicing and maintaining records. (Motorhome excludes mechanical/running gear)

Inclusion of Information and Communications Technology (ICT)

ICT is included as mandatory in this pathway.

Progression routes into and from this pathway

PROGRESSION INTO THIS ADVANCED LEVEL (LEVEL 3) APPRENTICESHIP

This can be from a wide range of routes including:

- Intermediate Level Apprenticeship in Vehicle Maintenance and Repair;
- work or work experience within the following industries: mechanical, gas, plumbing, carpentry/woodwork, electrical or engineering;
- training and/or experience which could include a portfolio showing what they have done;
- any of the Functional Skills or equivalent;
- Young Apprenticeships;
- 14 - 19 Diploma in Engineering or Retail Business;
- a range of vocational or academic qualification(s);
- a Traineeship.

Apprentices will undergo an initial assessment to identify prior learning and experience which may count towards the achievement of this Apprenticeship.

PROGRESSION FROM THIS ADVANCED LEVEL (LEVEL 3) APPRENTICESHIP

Jobs:

- on completion of this Advanced Level (Level 3) Apprenticeship, apprentices will be competent to work as a Caravan and Motorhome Advanced Technician;
- following further training and development, apprentices can progress to a range of jobs such as vehicle body repair, Workshop Controller, Service Adviser, Service Manager, Workshop Manager or Master/Senior Technician.

Industry approved training and qualifications:

- apprentices can undertake a range of qualifications approved by the Caravan and Motorhome industry for continuing technical and professional development.

Higher Level (Level 4) Apprenticeships:

- Higher Level (Level 4) Apprenticeship in Vehicle Maintenance and Repair.

Further and Higher Education:

- after further training and development onto a Foundation degree for example, in Automotive Engineering or Automotive Technology; OR
- onto Higher Education (HE) programmes such as MEng and BEng programmes in Automotive.

How equality and diversity will be met

The Automotive Retail Industry in England, is mainly white and male with the average age of the workforce is 40 years with 18% aged between 16 and 24 (in the UK).

A breakdown of data for Apprenticeship starts at Levels 2 and 3 in the Automotive Retail Industry for 2010/11 showed the following :

- 2% female;
- 98% Male;
- 93% White British;
- 12% Learning Difficulty;
- 11% Learning Disability;
- 14% come from the least deprived areas in England, which leaves 86% of Apprenticeship starts from areas with an index of multiple deprivation of between 20% and 80%.

The Apprenticeship route has been popular in the Automotive Retail Industry, particularly on the technical side, for a number of years; however recruitment still causes difficulties. The difficulties appear to result from the industry's image problems together with pay conditions and career prospects. In order to counteract some of these issues, awareness of the Automotive Retail Industry as a profession is being raised through:

- training programmes for 14-16 year olds in the Automotive Retail Industry, which has been raising awareness in schools;
- the family of Headlight products, which are free resources for teachers and students at Key Stage 3-4 centred around Business Studies, Mathematics and Literacy with the Automotive Industry as the exciting backdrop;
- Autocity - Careers website for the Automotive Industry, which includes non stereotypical images of jobs in the sector;
- HUBcap, the HUB for Careers and Academic Professionals to Provide a Well Rounded Solution to Motor Industry Careers Practitioners;
- 1st Gear, which is an online community designed to engage 13-16 year olds with the Automotive Retail Industry.

Apprenticeships are seen as a vital route to encourage and facilitate a greater diversity of individuals into the industry, therefore entry conditions to this framework are extremely flexible and an average of two hours mentoring a week is included for all pathways and all levels.

The IMI expects providers and employers to comply with the Equality Act 2010 to ensure that applicants are not discriminated against in terms of entry to and promotion within, the sector using the 9 protected characteristics of:

1. Age
2. Disability
3. Gender
4. Gender reassignment
5. Marriage and civil partnerships
6. Pregnancy and maternity
7. Race
8. Religion and Belief
9. Sexual orientation

Download the guidance on the Equality Act here:

www.equalityhumanrights.com/advice-and-guidance/new-equality-act-guidance/

The IMI monitors take up and achievement of all Apprenticeships through a range of mechanisms such as employer focus groups, steering groups as and when necessary and research tools such as benchmarking reports. The IMI will take steps to address any barriers to take up and achievement as part of our Sector Qualifications Strategy.

General statement about Guided Learning Hours: GLH:

- must be planned, reviewed and evaluated jointly between the apprentice and tutor, teacher, mentor or manager;
- must allow access as and when required by the apprentice either to a tutor, teacher, mentor or manager;
- are delivered through one or more of the following methods: individual and group teaching, e-learning, distance learning, coaching, mentoring, feedback and assessment, collaborative/networked learning with peers; guided study, (refer to "how this requirement will be met" in the off the job and on the job GLH sections);
- completed in relation to accredited components of the framework achieved prior to the Apprenticeship training may count towards the GLH requirement for the framework;
- where an apprentice completes an Apprenticeship part way through the final 12 month period (which is after the first 12 months), an apprentice must receive a proportion of the minimum of 280 GLH which is at least equal to the proportion of the final 12 month period spent on the Apprenticeship.

Recommendations about the minimum duration, minimum hours of employment and new skills and learning:

- GLH are delivered during contracted working hours;
- the minimum hours of employment for an apprentice should be at least 30 hours per week. By exception, where the individual's circumstances or the particular nature of employment in a given sector makes this impossible, then an absolute minimum of 16 hours must be met. In such cases the duration of the Apprenticeship should be extended;
- apprentices aged between 16 and 18 - the Apprenticeship must last at least 12 months in order to stretch the candidate;
- apprentices aged 19 and over - the Apprenticeship must be at least 12 months, unless relevant prior learning is recorded. Where this is the case, Apprenticeships will not be less than six months and must include new skills and new learning in order to stretch the

candidate;

- where an apprentice has prior learning accredited, the programme must include new skills and learning;
- where an apprentice does not have Level 2 Functional Skills in Maths and English, they are given the opportunity to progress towards this.

How this requirement will be met

Off the job GLH should:

- achieve clear and specific outcomes which contribute directly to the successful achievement of the framework and this may include accredited and non-accredited elements of the framework;
- be planned, reviewed and evaluated jointly between the apprentice and a tutor, teacher, mentor or manager;
- allow access as and when required by the apprentice either to a tutor, teacher, mentor or manager;
- be delivered through one or more of the following methods: individual and group, teaching; e-learning; distance learning, coaching, mentoring, feedback and assessment,

collaborative/networked learning with peers, guided study;

- off the job GLH is typically delivered through weekly day release or block release study with a training provider;
- include a mentoring record or diary kept by the apprentice (not required at certification).
- mentoring often increases the chances of apprentices completing the programme, therefore, as a guide, it is recommended that apprentices receive an average of two hours a week mentoring, although some apprentices will need more than this at the beginning and this will decrease as they progress.

Evidence for off-the-job GLH:

Level 2

Personal learning and thinking skills assessment and recognition (England)

Summary of Personal Learning and Thinking Skills

Evidencing and recognition of each PLTS

Apprentices must be introduced to Personal Learning and Thinking Skills (PLTS) during induction so that they learn to recognise for themselves when and where they are practicing these skills.

All six PLTS are embedded within all competence and knowledge units. For more information on PLTS and to view the IMI's mapping document please click on the following link:

http://www.theimi.org.uk/standards_and_Qualifications/apprenticeship/apprenticeship-programmes

Each of the PLTS is cross-referenced within the unit's assessment documentation and also cross-referenced to the mandatory unit's (as a minimum) documentary evidence. The assessors will take a holistic approach to assessment of all PLTS and they will document this on the evidence sheet which is signed off by the apprentice and the assessor.

The IMI provides a transferable skills evidence record sheet which apprentices must use to record when, where and how the learning for PLTS have been delivered and demonstrated. To download the evidence record sheet please click on the following link:

http://www.theimi.org.uk/standards_and_Qualifications/apprenticeship/apprenticeship-programmes

This process will therefore mean that:

- all areas of each of the PLTS are met with the achievement of the competence and knowledge qualification which is required to be completed as part of this Apprenticeship;
- the evidence that each PLTS has been achieved will be the certificate for the competence and knowledge qualification(s) along with a declaration from the training provider stating that PLTS has been delivered in accordance to the framework requirements.

Please see each individual PLTS below for further information.
