## APPRENTICESHIPS IN ENGLAND ARE CHANGING

---

As part of these changes, the Government have introduced a new Apprenticeship Standard for Light Vehicle Service and Maintenance Level 3 (L3).

As your recognised and dedicated partner supporting training in the motor sector, we are pleased to offer this programme.

## **IMI IS THE EXPERT PARTNER FOR YOUR NEW LIGHT VEHICLE APPRENTICESHIP (L3)**

Backed by sector expertise, we are here to help you deliver first-class training that provides support from start to finish.

You can get guidance, practical assessments, online knowledge, behavioural assessments and the all important end-point assessment (EPA), to help you and industry employers adopt the new Apprenticeship Standard. With the IMI you also get administrative backup to support you with a seamless process.

## **IMI SOLUTION TO THE NEW APPRENTICE REFORMS**

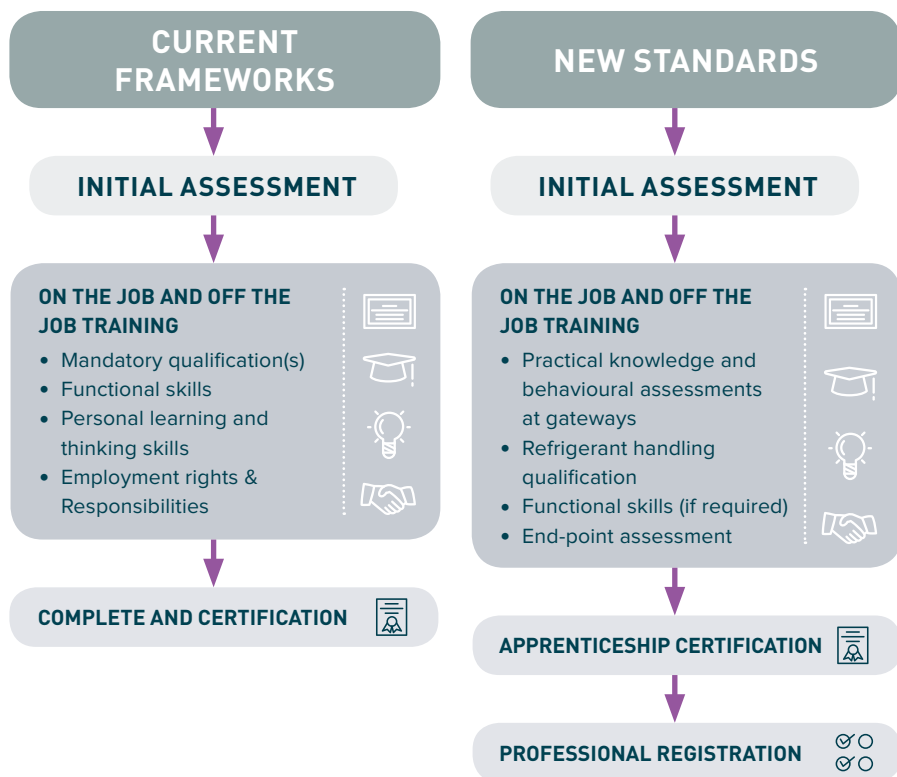

Already acknowledged in the industry as providing the highest quality assessments and support material, we can help you engage with employers and give them the confidence that you are the right training partner to work with.

Our flexible packages and learning support includes:

- Expert advice and guidance on how to deliver the new Standard
- Practical assessments and online knowledge tests for each gateway
- End-point assessments (EPA)
- eLog book
- Behavioural assessment tool
- Refrigerant handling qualification
- Functional skills (if required)
- Apprentice, employer and training provider support

# FRAMEWORKS Vs STANDARDS

New Apprenticeship Standards are categorised by the introduction of end-point assessments replacing mandatory qualifications.
